**Faculty: Ms. A. Beulah**

**Due Date: 1.9.20, 3.9.20**

**Exercise 2a: SIMPLE CLIENT SERVER USING TCP**

Develop a socket program to establish a client server communication. The client sends data to server. The server replies to the client.

**Sample Input Output**

**Client Side**

Client: Hello! How are you?

Message from Server: I am fine.

**Server Side**

Message from Client: Hello! How are you?

Message sent: I am fine.
